- 2. OUTSTANDING SOUND**
- 3. DURABLE BATTERY**

Meet the **PRO BT**, the newest Axtel Bluetooth headset with dual connectivity and perfect sound that will leave you amazed.

## PRO BT

PRO BT mono

PRO BT duo

**30**

hours talk time

**45**

hours listening time

**20**

days standby time

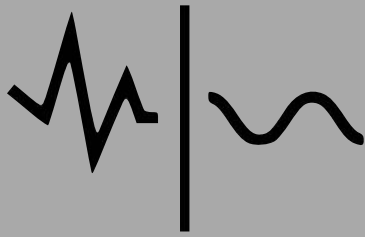

PRO BT is the first choice of anyone who values convenience, comfort, reliability and functionality from a professional headset. The 350 mAh powerful battery allows days of conversations without charging. PRO BT offers a quick and efficient charging experience, taking only 90 minutes for a full charge. And if you completely drain the headset? That's okay, **plug in the USB-C cable for just 5 minutes to get as much as 1.5 hours of talk time, or simply use the headset while charging it.** One thing is for sure, you won't run out of energy.

EQUALS  
1.5 HOUR  
TALK TIME

**ENC**

PRO BT has advanced ENC technology - **Two-Microphone Environmental Noise Cancellation system**. PRO BT has two microphones, one captures only your voice, and the second one cancels the surrounding noise through an advanced processor, monitoring levels of unwanted noise. This way **your interlocutor hears nothing but you.**

Instant privacy?  
**Quick Mute** function allows you to mute with one move - lifting the microphone boom arm.

With energy-efficient **Bluetooth 5.1** and support of leading protocols, the PRO BT pairs seamlessly with your phone or laptop. You also have control directly on the headset.

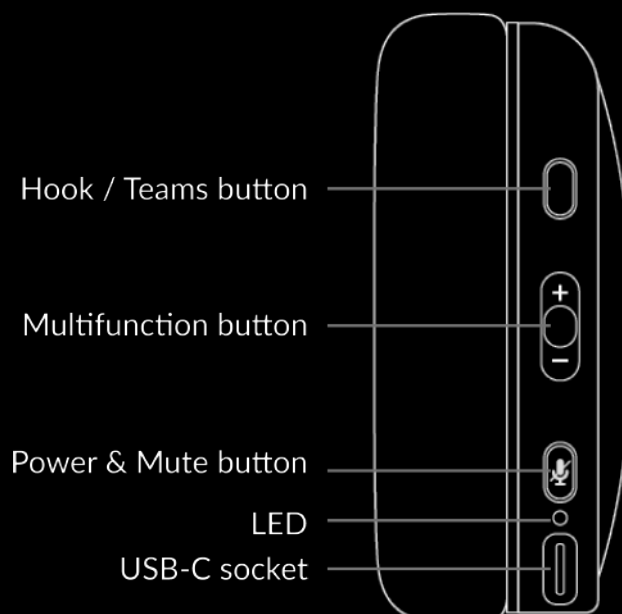

**QUICK MUTE**

LIFT MICROPHONE TO MUTE

PRO BT has 3 intuitive control buttons:

- **Hook / Teams button:** answering, ending and rejecting calls
- **Multifunction button:** play and stop music, skip and return to a song, control volume
- **Power & Mute button:** turn on and off, mute the microphone, pair a new device

**PRO BT**

PRO BT headsets are remarkably comfortable, thanks to two components: the lightweight design and ear pads made of vegan leather and Memory Foam. **Memory Foam** adapts to every shape and provides identical pressure on the ear at every point, which has a major effect on comfort when working for hours.

**PRO BT**

Comfortable?  
That's an  
understatement.

## DUAL CONNECTIVITY

The PRO BT connects  
to two devices  
simultaneously.

**PRO BT supports MS Teams with the  
provided free PRO BT Dongle.**

USB-A plug in PRO BT Dongle also  
enables you to use the PRO BT headset  
with any device, even those without built-  
in Bluetooth, without installing any  
software, just Plug&Play!

## MS TEAMS SUPPORT

**Extend the life of your PRO BT.**

Axtel's sustainable development  
policy ensures that we offer a refresh  
service for your headset after 2 years  
of use. Together, we can make a  
difference and contribute to a brighter  
and greener future, in line with our  
commitment to sustainable  
development.
